

Deltacom Access Dialer Installation and Quick-start

Deltacom Communications, Inc. Confidential

(Compatible with Windows 95, 98, NT, 2000 or ME)

1. Double click on Dialer Icon.
2. Answer "Yes" when asked if you want to install.
3. When asked to click on "my use" or "all users", choose "my use" for slie usage or "all users" for sharing on a shared network. Neither choice will impact the dialer functionality.
4. The dialer will automatically launch after installation.
5. Enter your Deltacom IP VPN username and password.
6. Click the properties button at the bottom of the window.
7. Verify that the correct Deltacom IP VPN dial number appears in the first box. Note the first time the dialer is loaded the box will be empty.
8. If the phone number box is empty or incorrect on the properties window click the phonebook button and choose a number by state and then city.
9. Click Ok on the phonebook and the Ok on the properties window.
10. Last step, click the connect button to establish your IP VPN connection.
11. Future use of the dialer will be accomplished by "double clicking" its icon.
