FOR IMMEDIATE RELEASE

Deltacom Offers BlackBerry 8830 World Edition and BlackBerry Curve 8330 Smartphones with Simpli-Mobile

Huntsville, Ala., January 19, 2009 – ITC^DeltaCom, Inc. (OTC: ITCD.OB), a leading provider of integrated communications services to customers in the southeastern United States, today announced that the BlackBerry® 8830 World Edition and BlackBerry® Curve™ 8330 smartphones from Research In Motion (RIM) (Nasdaq: RIMM; RSX: RIM) are now available to Deltacom customers as part of its Simpli-MobileSM offering for small and medium sized businesses.

Complimentary additions to Deltacom's Simpli-Mobile service, the BlackBerry 8830 World Edition and BlackBerry Curve 8330 smartphones offer comprehensive mobile experiences, with support for phone, email, messaging, organizer, web browser and multimedia applications, delivered in user friendly and stylish designs. The BlackBerry Curve 8330 smartphone is a sleek handset that also features a 2 MP camera with video recording*, while the BlackBerry 8830 World Edition smartphone is an executive-class handset able to roam onto GSM/GPRS networks, giving customers voice and data coverage when travelling internationally.

“The BlackBerry solution is a natural fit with our extensive portfolio of integrated technology and communications solutions, keeping Simpli-Mobile customers connected and productive,” said Lee A. Kimball, Deltacom's Senior Vice President of Marketing. He added, “We are able to offer Deltacom Simpli-Mobile users a complete BlackBerry solution, which includes mobile service, hosted Microsoft® Exchange and POP email, so they can stay connected to their business.”

Deltacom also offers two Simpli-Mobile email service options that require no expensive hardware or in-house expertise. The enterprise-class Hosted Microsoft Exchange solution works in conjunction with Blackberry® Enterprise Server to enable users to synchronize their email, calendars, contacts, and tasks seamlessly into their office environment using either BlackBerry® smartphone. Deltacom also provides a hosted POP email solution accessible via the smartphones. Customers can also use the BlackBerry smartphones from Deltacom with their own email environment.

The comprehensive Simpli-Mobile offering can be bundled with Deltacom's flagship Simpli-BusinessSM solution, an integrated, customized package of the Deltacom voice and data network, NEC phone systems, Lexmark printers and Lenovo PCs. Combined, Simpli-Mobile and Simpli-Business offer a complete, feature-rich communications plan, that can now leverage the extensive multimedia capabilities of BlackBerry smartphones. Customers benefit from time savings, operational efficiency and the convenience of one provider and one invoice, all backed by Deltacom management and service.

* Video recording requires microSD memory card, sold separately.

ABOUT ITC^DELTACOM, INC.
